Keeping US Connected

Greetings Parents and Staff,

We are excited about having an awesome August! New children will be enrolling and others back from summer break. We are so excited to welcome everyone to Open House on August 15th!

Have you received the announcement through SEER? Please let me know if you have not.

Classroom Updates

After seven years of exceptional classroom teaching with GAC, we are very sad to share that Ms. Lucy submitted her resignation last Thursday to Ms. Donna.

She shared that she is moving. She and her husband are planning to sell their home and relocate. Next week she will be in California and cannot be at Open House. As Ms. Lucy's plans to move are in the initial stages; we have asked her to visit us as often as she can. I have had the privilege of only working with her a few weeks, but I have already felt her deep devotion to our children and blessings to our center - her legacy of love, excellence, and service will never be forgotten.

Facility Updates

For the last 4 weeks, certain functions of our Avigilon camera system has not been working since we had a bad thunder storm. It has been a frustrating struggle for us! Waiting on the repairs have caused 2 major issues.

1. New parents can't be issued door codes or access to view their children in classrooms.
2. Current parents with children moving up to new classrooms can't access new room's cameras either.

Mr. Roberts has been working with Mr. Kip, our technician, to repair it. The new part was ordered 2 weeks ago and we are expecting it to be fixed any day. We all are sorry for this situation, but I will send a message thru Seer once it's back functioning at 100%.

Staff Updates

Highlighting a GAC Rising Star!

Congratulations to **Alie Cochran**, our Toddler Teacher, who will be celebrating her one year anniversary with GAC on Sep 18th. Alie says, "I love my job and my kids" -- She has referred 3 new team members. We are thankful for her commitment and willingness to help us with our recruitment. I am thankful for Alie's example; she is positive, caring, and committed to her career in caring. We love and appreciate her!

As I shared last week, please connect with me directly at gracechildusa@gmail.com or call me at 540-382-9591 if you are not getting daily connections about important information about meals, naps, and potty times. Your direct feedback will help me determine if we are successful and consistent!

Until next connection, Fondly, Ms. Megan and Team
